ABSTRACT

The Florida Writing Assessment was implemented in grades 4, 8, and 10 in 1998 as required by the Florida legislature. The assessment is designed to measure students' proficiency in writing responses to assigned topics within a designated testing period. This report contains writing assessment results for the whole state, school districts, and individual schools for 139,810 eighth graders taking the standard curriculum. The program results provide a comparative measure of student performance for schools and districts for each annual administration, as well as a basis for identifying trends in writing over a period of several years. It does not provide an exact index of changes in performance from year to year. (SLD)

Preface

The Florida Department of Education is responsible for assessing the writing of Florida's students and communicating the results to the citizens of Florida. In spring 1998, fourth, eighth, and tenth grade students were administered the Florida Writing Assessment. This document, the *State, District, and School Report of Statewide Assessment Results, Spring 1998 Writing Assessment, Grade 8*, reports the students' writing proficiency as measured by the statewide writing test.

This report was prepared by the staff of the Assessment and Evaluation Services Section, Division of Public Schools, Florida Department of Education. Questions relating to this publication or the Florida Writing Assessment Program in general may be directed to the staff by writing or calling

THE FLORIDA WRITING ASSESSMENT PROGRAM

INTRODUCTION

The Florida Writing Assessment was implemented in grades 4, 8, and 10 as required by a law passed by the 1990 legislature. The assessment is designed to measure students' proficiency in writing responses to assigned topics within a designated testing period. The assessment of writing proficiency, by its nature, incorporates the assessment of higher order skills because students are required to generate and develop the ideas that form the basis for their written responses.

The Assessment and Evaluation Services Section of the Department of Education, which administers the Florida Writing Assessment Program, is also responsible for reporting information about student writing proficiency to students, parents, educators, legislators, and citizens. Students and their parents or guardians receive individual student reports, and teachers and administrators receive school and district reports.

This document, the *State, District, and School Report of Statewide Assessment Results, Spring 1998 Writing Assessment, Grade 8*, may be used to inform district- and state-level administrators, legislators, and the general public about the writing assessment results.

THE FLORIDA WRITING ASSESSMENT PROGRAM

The Florida Writing Assessment Program requires students to produce a piece of writing within established guidelines and specific parameters.

Each student receives a writing folder containing one writing prompt (topic) with two lined pages for the written response. Students are given 45 minutes to read the prompts independently, plan their responses, and write their responses in the folders. A separate sheet is provided for planning or prewriting activities (e.g., outlining, clustering, mapping, and jotting down ideas).

The student responses are scored by trained readers using the holistic method to evaluate a piece of writing for its overall quality. The readers consider four elements: focus, organization, support, and conventions. In this type of scoring, readers make a judgment about the entire response and do not focus on any one aspect of writing.

Focus refers to how clearly the paper presents and maintains a main idea, theme, or unifying point. Papers representing the higher end of the point scale demonstrate a consistent awareness of the topic and do not contain extraneous information.

Organization refers to the structure or plan of development (beginning, middle, and end) and whether the points logically relate to one another. Organization also refers to (1) the use of transitional devices to relate the supporting ideas to the main idea, theme, or unifying point and (2) the

evidence of a connection between sentences. Papers representing the higher end of the point scale use transitions to signal the plan of development or text structure and end with summary or concluding statements.

Support refers to the quality of details used to explain, clarify, or define. The quality of support depends on word choice, specificity, depth, and thoroughness. Papers representing the higher end of the point scale provide examples and illustrations in which the relationship between the supporting ideas and the topic is clear.

Conventions refers to punctuation, capitalization, spelling, and variation in sentence structure. The conventions are basic writing skills included in Florida's Sunshine State Standards. Papers representing the higher end of the point scale follow, with few exceptions, the conventions of punctuation, capitalization, and spelling, and use a variety of sentence structures to present ideas.

**POPULATION
TESTED**

The Florida Writing Assessment is administered each year to all fourth, eighth, and tenth grade students enrolled in Florida's 67 counties and the university laboratory schools. In the Florida Writing Assessment and other state-administered tests, student results are reported in three curriculum groups for each grade level. This report presents the test results for 139,810 standard curriculum eighth grade students. Results are reported separately for students who have participated in the Limited English Proficiency Program for two years or less and for students who are classified in Exceptional Student Education programs other than gifted, speech impaired, language impaired, or hospital/homebound programs.

**TYPES OF WRITING
PROMPTS**

The 1998 assessment tested student achievement in two different types of writing at each grade level: narrative and expository in grade 4 and persuasive and expository in grades 8 and 10. These are defined as follows: (1) expository writing gives information, explains why or how, clarifies a process, or defines a concept; (2) narrative writing recounts a personal or fictional experience or tells a story based on a real or imagined event; and (3) persuasive writing convinces the reader that a point of view is valid or that the reader should take a specific action.

Prompts are written to elicit writing for specific purposes. For instance, expository prompts may ask students to explain why or how, narrative prompts may direct students to recount or tell, and persuasive prompts may require students to convince or persuade.

Florida Writing Assessment prompts are carefully selected to ensure that the subject matter will be interesting and appropriate for the students. In addition, these prompts are reviewed for any bias relating to gender, religion, race, or ethnic background.

Prompts have two basic components: the writing situation and the directions for writing. The writing situation orients students to the subject on which they are to write. The directions-for-writing component sets the parameters for writing and, in the case of persuasive prompts, identifies the audience to whom the writing is directed.

**Example of an
Expository Prompt**

Writing Situation:

Everyone has jobs or chores.

Directions for Writing:

*Think about why you do one of
your jobs or chores.*

Now explain why you do one of your jobs or chores.

USE OF RESULTS

The Florida Writing Assessment Program results contained in this report represent a state-level assessment of writing achievement at a single point in time based on criteria developed by Florida educators. These results provide a comparative measure of student performance for schools and districts for each annual administration.

Interpretations of the Florida Writing Assessment Program achievement results are subject to several limitations. Writing achievement is limited by definition to the writing task completed during the assessment: during a 45-minute time period, students write in response to an assigned topic for the purposes of writing specified by the program, without access to dictionaries or other reference materials. Because only one example of writing is collected from each student under these conditions, scores for individual students are not reliable measures of a student's general writing achievement. Scores from the Florida Writing Assessment Program must be considered in relation to how well each student writes when given a variety of classroom writing assignments.

The Florida Writing Assessment Program results will provide a basis for identifying trends in writing over a period of several years, but do not provide an exact index of changes in performance from year to year. The writing assessment employs one topic for each type of writing at each grade level. Because a topic given in any one year, by its nature, may be somewhat easier or harder for students to respond to than the topic given the previous year, differences seen in results from one year to the next may be due to

differences in the difficulty of the topics as well as to actual changes in student achievement. Performance tests (e.g., the Florida Writing Assessment) that rely on the use of one topic do not lend themselves to statistical methods, which can control for differences in test difficulty.

Taking into account these limitations, the results presented in this report can assist in the identification of strengths and weaknesses in writing instruction programs. Teachers and administrators may find it useful to examine the number of students scoring at different levels and the differences in student scores for each type of writing. The scores for students in a classroom or school can be interpreted in reference to sample student papers provided in the *Florida Writes!* publications for each grade level assessed and to other materials available from the Department. Student writing performance can be further evaluated through carefully designed classroom or schoolwide writing assignments.

The Florida Writing Assessment Program results do not represent a comprehensive evaluation of writing instruction programs; consequently, the Florida Writing Assessment Program does not measure all important aspects of writing. For example, student achievement in writing an extended manuscript or a report involving detailed information is currently not measured by the Florida Writing Assessment Program. A comprehensive evaluation of student writing would take into consideration writing for a number of purposes under different conditions and would utilize information from a number of sources, such as student portfolios, teacher observations, and interviews with students.

4.0
3.5
3.0
2.5
2.0
1.5
1.0

6.0: The writing focuses on the topic, is logically organized, and includes substantial development of supporting ideas or examples. It demonstrates a mature command of language, including precision in word choice. Sentences vary in structure. Punctuation, capitalization, and spelling are generally correct.

5.5: The writing was given a 5 by one reader and a 6 by the other reader.

5.0: The writing focuses on the topic with ample development of supporting ideas or examples. It has an organizational pattern, though lapses may occur. Word choice is adequate. Sentences vary in structure. Punctuation, capitalization, and spelling are generally correct.

4.5: The writing was given a 4 by one reader and a 5 by the other reader.

4.0: The writing focuses on the topic, though it may contain extraneous information. An organizational pattern is evident, but lapses may occur. Some supporting ideas contain specifics and details, but others are not developed. Word choice is adequate. Sentences vary somewhat in structure, though many are simple. Punctuation, capitalization, and spelling are usually correct.

3.5: The writing was given a 3 by one reader and a 4 by the other reader.

3.0: The writing generally focuses on the topic, though it may contain extraneous information. An organizational pattern has been attempted, but lapses may occur. Some of the supporting ideas or examples may not be developed. Word choice is adequate. Sentences vary somewhat in structure, though many are simple. Punctuation and capitalization are sometimes incorrect, but most commonly used words are spelled correctly.

2.5: The writing was given a 2 by one reader and a 3 by the other reader.

2.0: The writing may be slightly related to the topic or offer little relevant information and few supporting ideas or examples. There is little evidence of an organizational pattern. Word choice may be limited or immature. Sentences may be limited to simple constructions. Frequent errors may occur in punctuation, capitalization, and spelling.

1.5: The writing was given a 1 by one reader and a 2 by the other reader.

1.0: The writing may only minimally address the topic because there is little or no development of supporting ideas or examples. No organizational pattern is evident. Ideas are provided through lists, and word choice is limited or immature. Unrelated information may be included. Frequent errors in punctuation, capitalization, and spelling may impede communication.
